**Directorate of Industries and Commerce
Kerala : Trivandrum**

1980

PREFACE

The development of small scale industries in Kerala in an organised form began only in the latter half of twentieth century. In the beginning, the growth, however, was not appreciable even though the State is endowed with educated man-power, natural resources and cheap and perennial hydro electric power. The seven years witnessed a remarkable growth in the small industries in Kerala.

There are over 14,000 registered and a substantial number of unregistered small scale industrial units in the State now. The small scale sector plays an important role in the growth of the economy of this agrarian State and in fact it is fast emerging as an important economic activity in terms of capital investment, employment potential, value of production etc.

The absence of a single source of information on the industrial units of the State was being felt very badly. This directory containing the names and addresses of small scale units, the products manufactured by them, installed capacity, investment, employment and other details of such a source of information will meet the long felt need. It is expected that this directory will be of immense value to the industrial units themselves as well as to the manufacturers and consumers of various products. Above all, it is bound to aid the industrial development and planning by the State Government and other promotional agencies by providing useful data on the volume of activity, potentialities of development etc.

A lot of effort has gone into the preparation of this directory. The staff of the Small Industries Service Institute, Trichur have done a commendable job in the compilation of the directory based on the information furnished by the District Industries Centres. The officers of the Directorate, especially in the Planning Wing and particularly in the "nucleus cell" have also made appreciable contribution in bringing out the directory in this form.

I am grateful to the Kerala State Small Industries Development & Employment Corporation Ltd., for taking up the responsibility of printing the directory on our behalf. My thanks are also due to M/s Anupama Printers Kumarapuram, Trivandrum for having neatly printed the directory within a very short time.

I do not hesitate to admit that there may be some omissions and lapses in the data presented here. It is hoped that this directory can be revised and updated every year. I request that suggestions for updating and improving the directory in the coming years may be brought to the notice of the Department.

I hope and trust that this directory will be a useful reference book to all concerned.

Trivandrum
15-3-1980

K. R. RAJAN, I. A. S.
Director of Industries & Commerce, Kerala.
